

# Better Homes

## Homes, Better Homes, Best Homes

It isn't always the monetary value of a home or its furnishings, its location, its architecture, nor yet the prominence of its owner that designates a home in one of the three classes. Only when every safe-guard has been thrown around it; only when a sense of peace and security prevails can it be properly classed as a "best home."

### Protect Your Home With TITLE INSURANCE

The Cost Is Very Small for the Protection It Affords
